

August 13, 2018

To whom this may concern,

I'm an assistant professor at Lehigh University, serving as Mr. Ningfei Wang's research advisor. I'm writing this letter to support his application for the student travel grant to attend CCS.

Ningfei is the leading author of the paper "Integration of Static and Dynamic Code Stylometry Analysis for Programmer De-anonymization", which is accepted by the AISEC workshop at CCS. Unfortunately, as a master's student, Ningfei doesn't have necessary funding support. Therefore, I sincerely hope you can grant him student travel support to attend the workshop and present the work, which would be critical for him to expand his research scope and exchange ideas with other researchers.

Please feel free to contact me if you need other information.

Sincerely,

Ting Wang

Assistant Professor
Computer Science and Engineering, Lehigh University
